1.0 Purpose

This document serves as the Ordering Guide for the DoD ESI Agency Catalog for Palo Alto Products and Services. The DoD ESI Agency Catalog for Palo Alto products and services can be purchased through the NASA Solutions for Enterprise-Wide Procurement (SEWP) Agency, which is a Government-Wide Acquisition Contract (GWAC) managed by the National Aeronautics and Space Administration (NASA). This Ordering Guide contains essential information regarding the DoD ESI Agency Catalog for Palo Alto Networks, Inc., including authorized users, products available for purchase, ordering instructions and processes, and Point of Contact (POC) information.

The DoD ESI Agency Catalog for Palo Alto Networks, Inc. is a source of supply for Palo Alto Networks, Inc. software license subscriptions, proprietary hardware, services, spare parts, professional services, lab misc. Information pertaining to these Catalogs on SEWP (e.g., Terms and Conditions, referenced attachments herein, etc.) is located on the DoD ESI portal site at: <https://www.esi.mil/default.aspx>

2.0 Overview

On behalf of the DoD and other authorized users (see Section 3.0 for details on authorized users), PEO Digital, Strategic Sourcing Services Portfolio has established a DoD ESI Agency Catalog under NASA SEWP for the purchase of all Palo Alto Product and Service requirements (except cloud services). This Agency Catalog was established on 27 June 2022. The establishment of the Agency Catalog includes the negotiation of a License Agreement and Palo Alto services with respect to the DoD's Terms and Conditions (Ts&Cs). The results of those negotiations are memorialized as Attachments to both the solicitation and the Agency Catalog.

Ordering and funding for this agreement are decentralized. Each program is responsible for their own processes in order to fund the purchases of Palo Alto Commercial-Off-The-Self (COTS) subscriptions, proprietary hardware and its respective "ancillary" or "maintenance" services. Decentralized funding allows each Agency to maintain oversight of the licenses and hardware purchased by their organization as well as the subsequent annual sustainment.

3.0 Authorized DoD ESI Agreement Users

Below are the list of DoD ordering entities considered to be authorized users:

DoD or Agencies

This Catalog is open for ordering by the "DoD Departments and Agencies" on a world-wide basis. "Departments and Agencies" are defined by the Title 48 Code of Federal Regulations, Section 202.101. In addition, "DoD or Agencies" includes the Intelligence Community (IC) and the U.S. Coast Guard. For the purposes of this Catalog, a DoD component is defined as follows: the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chief of Staff, the Unified Combatant Commands, the Inspector General of the Department of Defense (DoD IG), the Defense Agencies, the DoD Field Activities, the U. S. Coast Guard, *Intelligence Community (IC) and Foreign Military Sales (FMS) with a Letter of Authorization.

*The Intelligence Community is a federation of Executive branch intelligence agencies and Organizations that are comprised of 18 member organizations <https://www.dni.gov/index.php/what-we-do/members-of-the-ic> Office of the Director of National Intelligence (ODNI) is authorized to procure IT through the DoD ESI per the Memorandum of Agreement, dated 15 May 2008. <https://DoDcio.defense.gov/portals/0/documents/net-centric-moa.pdf>

Contractors and Integrators

Government contractors performing work for a DoD Component (as defined above) may place Orders under this Catalog on behalf of and for the benefit of the DoD entity if authorized by their cognizant Contracting Officer in accordance with the requirements of FAR 51 and/or DFARS 251 as appropriate. If the contractor has not been previously approved to place orders, under NASA SEWP, additional authorization may be needed via the NASA SEWP PMO (see: <https://www.sewp.nasa.gov/documents/AuthorizationLetterTemplate.pdf>).

4.0 Ordering

This vehicle will enforce a single set of terms and conditions negotiated between Palo Alto and the Government, which shall be incorporated by reference into each order placed under the Catalog. The Agency Catalog will facilitate the collection of metrics with regard to volume of requirements, obligated funds, user base, and status of deployed assets. It is anticipated by the DoD that Catalog participants will offer discounts beyond those normally afforded via traditional SEWP competitions.

All DoD ordering activities are required to consider ordering their Palo Alto software requirements from the DoD ESI Agency Catalog in accordance with DFARS 208.74. DFARS PGI 208.7403 describes the acquisition procedures for ordering commercial software licenses and related services. The DFARS covers commercial software and related services, subsequent Management Initiative Decisions and IT reform efforts have authorized the DoD ESI to incorporate IT hardware and services into its portfolio of agreements.

Defense Components have issued supplemental policies to implement this DFARS requirement.

4.1 Notes to Contracting Officers

- a) Minimum discounts off current Palo Alto Agency Catalog for commercial products and services are specified in Attachment 2. The Contractor will provide discounts that are equal to or greater than those listed in Attachment 2 for each Reseller
- b) The government may secure additional discounts at the time of placing an order. Spot discounts are authorized and encouraged.
- c) Licensor may subcontract all or part of the Services to be performed, to a qualified third party only with the explicit written acceptance of the Government.
- d) Trade Agreements Act (19 U.S.C. & 2501-2581) (TAA Compliance): Reseller shall designate that all hardware is labeled as "TAA Compliant," "Not TAA Compliant" or "Not Applicable" for each quoted line item
- e) Follow FAR 19.5 for set-aside requirements

4.2 Guidance for Navigating the NASA SEWP Website

Prior to ordering, users need to sign-up for a NASA SEWP account.

The NASA SEWP website can be accessed at: <https://sewp.nasa.gov/>

1. All users must already have, or create, a SEWP user account. Users can log in or request account creation via the "Log-in" link at the top of the SEWP home page
2. Either enter login information or register for an account on the following page
3. Once logged in, select "Agency Catalog Tool" from the "Catalogs" menu at the top of the page
4. You will be presented with a list of all SEWP Agency Catalogs accessible to your organization, including the Palo Alto Networks, Inc. DoD ESI. Click on the link to the Palo Alto Networks, Inc. Agency Catalog
5. On the resulting page, click "I would like to create a Catalog Request for Quotation (RFQ) or Catalog

Market Research Request based on the DoD ESI Catalog”

6. The remaining steps are the same as the normal NASA SEWP RFQ process
7. Also listed on the DoD’s page is relevant agreement and reseller documentation

4.3 Ordering Process

1ST End User OR End User’s Respective Ordering Office

1. Log-In to NASA SEWP and visit the Agency Catalog Section of the NASA SEWP site.
2. Scroll down until you see the DoD ESI Agency Catalog for Palo Alto.
3. Select arrow beside Palo Alto to expand drop down menu and select applicable category.
4. Click on “I would like to create an RFQ or Market Research Request based on the DOD ESI Catalog” link.
5. On the “Create a DOD ESI Catalog Request” fill out all required information (Description, Request Type, Contract Holders, Attachments, and Reply by Date) then click “Continue”.
6. On the following page review your request and click “Confirm and Submit” to complete.

2ND NASA SEWP Program Management Office (PMO)

1. Verifies Order.
2. Forwards valid Order to the appropriate Contract Holder.

3RD SEWP Contract Holder

1. Processes Order.
2. Delivers Equipment & Services.
3. Invoices Agency or Contractor.

4.4 Use of Government Sources by Contractors

Contractors are authorized to purchase off the DoD’s SEWP contract when permitted in writing by the Contracting Officer for that contractor’s contract or solicitation. For a contractor to order from the SEWP catalog, the cognizant Contracting Officer is required to comply with FAR part 51 and DFARS 251. A Letter of Authorization (LOA) must be completed, signed by the Contracting Officer, and provided to the contractor. Please note that the Contracting Officer granting authorization is the one responsible for the support contract under which the Contractor is performing and is NOT necessarily the Contracting Officer who would normally handle Palo Alto Networks, Inc. buys for the agency. The LOA shall designate the owning organization name and customer ID number that will be responsible for future maintenance payments. The contractor will provide the DoD’s LOA to the Ordering Activity as proof that authorization has been granted. A sample of the LOA format to be used is located at DFARS PGI 251.102 and can be accessed at the following link: http://farsite.DoDII.af.mil/reghtml/regs/far2afmcfars/fardfars/dfars/PGI%20251_1.htm#TopOfPage.

4.5 Point of Contact

5.0 Funding

The funding of orders under the DoD ESI Agency Catalog for Palo Alto Networks, Inc. will be the responsibility of each activity based on the current funding processes of each organization. Customers should use their current financial systems and processes to budget and fund orders in coordination with their organization/program office POCs. These

organizations will be responsible for:

- Ensuring the proper funding appropriation is assigned to each order
- Ensuring budget and funding are available for new product requirements and annual maintenance in future years
