NAICS code 541519 – An Information Technology Value Added Reseller (ITVAR) provides a total solution to information technology acquisitions by providing multi- vendor hardware and software along with significant value-added services.

NAICS and PSC Codes Listed in FCN's Corporate SAM.gov Listing

Significant value-added services consist of, but are not limited to, configuration consulting and design, systems integration, installation of multi-vendor computer equipment, customization of hardware or software, training, product technical support, maintenance, and end user support. **For purposes of Government procurement, an information technology procurement classified under this exception and 150- employee size standard must consist of at least 15% and not more than 50% of value-added services, as measured by the total contract price. In addition, the offeror must comply with the manufacturing performance requirements or comply with the non- manufacturer rule by supplying the products of small business concerns, unless SBA has issued a class or contract specific waiver of the non-manufacturer rule. If the contract consists of less than 15% of value-added services, then it must be classified under a NAICS manufacturing industry. If the contract consists of more than 50% of value-added services, then it must be classified under the NAICS industry that best describes the predominate service of the procurement. Under 541519 with Exception 18 it can ONLY BE USE when we are selling only small OEM's products.**
